Overview

Pennsylvania is home to 7.8 million acres of farmland, from which the state's more than 59,000 hardworking farm families provide safe and affordable food, feed, fiber and fuel to people throughout the world. Agriculture a leading economic enterprise in Pennsylvania, with the sale of agricultural products contributing \$7.5 billion to the state's economy each year. Additionally, one in seven jobs are related to agriculture, accounting for approximately 14 percent of the state's employment opportunities. This vibrant industry is a reflection of Pennsylvania's agrarian heritage and represents a growing industry that plays a critical role in Pennsylvania's future.

Preserving Pennsylvania's farmland is essential for the future of our agriculture industry and our ability to produce homegrown food and fiber for our citizens. As farmers face increased development pressures and financial challenges, it becomes increasingly difficult to keep agriculture land in production.

The Pennsylvania Department of Agriculture's Bureau of Farmland Preservation helps ensure that agriculture continues by administering programs that keep prime agricultural lands available for production agriculture in perpetuity. The decision to preserve a farm is an enormous commitment that has been made by more than 4,700 Pennsylvania farm families to date.

With four full-time staff members, the bureau provides administrative and technical support to 57 counties that participate in farmland preservation programs, and the bureau oversees the distribution of funds set aside for preservation purposes.

The Pennsylvania Agricultural Conservation Easement Purchase Program is first in the nation in number of farms and acres preserved. In 2014, 200 farms were preserved by permanent agricultural easements.

Bureau Activities

The bureau reviews easement recommendations for state board approval, provides guidance to counties on issues related to preserved farms, and facilitates outreach to stakeholders. The bureau continued public information and training efforts in 2014, detailed in the section on page five.

The Pennsylvania Agricultural Conservation Easement Purchase Program reached its 500,000-acre milestone in 2014. The state board recognized this unprecedented achievement at the Flinchbaugh Farm Market in Hellam, York County, in October.

The bureau is empowered through the Farmland Preservation Program, Act 149 of 1988, as amended. Section 14.4 of Act 149 requires the State Agricultural Land Preservation Board to describe all relevant activities of the program for the preceding calendar year in an annual report.

This report covers the activities of the bureau and board from January 1 through December 31, 2014.

Program Implementation

The Pennsylvania Agricultural Conservation Easement Purchase Program was developed in 1988 to help slow the loss of prime farmland to non-agricultural uses. The program enables

state, county and local governments to purchase conservation easements – sometimes called development rights – from farm owners. The first easements were purchased in 1989.

Counties participating in the program have appointed agricultural land preservation boards. A state board is responsible for distribution of state funds and approval and monitoring of county programs, boards and specific easement purchases.

A farm's first step in becoming preserved is enrolling in an Agricultural Security Area (ASA), which protects the farm against local ordinances and nuisance lawsuits that would affect normal farming activities and provides special consideration in review of farmland condemnation by state and local government agencies. An ASA qualifies land for consideration under the easement purchase program at the landowner's request if the ASA has at least 500 acres enrolled.

In addition to being part of an ASA, farms considered for easement purchase must be in active agricultural use. Farms are evaluated by county officials according to soil quality, stewardship, and development pressure. Each farm is ranked and placed on a waiting list according to its ranking. Even with more than 4,700 farms preserved, roughly 1,900 eligible farms remain on county backlog lists.

In 2014, the State Agricultural Land Preservation Board met six times to consider individual easement purchases submitted by 46 of the 57 counties participating in the farmland preservation program. The state board approved for purchase 200 easements of various ownership combinations from state, county and local governments, as well as non-profits. Easements totaled 18,485 acres, making 2014 the largest year of preservation activity since 2009 in terms of number of farms and acres preserved.

Funding

Conservation easements allow property owners to retain title, pass the property to heirs, or sell the property, while still maintaining agricultural use of the land. Many farmers use the proceeds from easement sales to reduce debt loads and expand operations and as financial resources that can help ensure the transition of the farm to the next generation. Farmers may choose to receive the proceeds from easement sales in a lump sum payment, installments over a period of five years, or on a long-term installment basis.

To purchase these easements and secure land for Pennsylvanians to farm in the future, a source of funding for the conservation easement purchase program was dedicated in July 1993 with the collection of a percentage of a two-cent tax on each package of cigarettes sold in Pennsylvania. In 2002, the provisions of the cigarette tax revenue were changed to provide greater program fund stability by setting aside a flat appropriation. As a result, approximately \$20.5 million per year is now earmarked for the preservation of farmland.

In 2005, the farmland preservation program was granted a second dedicated funding source, with 14.8 percent of the proceeds of the Environmental Stewardship Fund made available each year for the purchase of easements. The reallocation of these funds to include farmland preservation was in coordination with the Growing Greener 2 bond initiative. In 2014, the Environmental Stewardship Fund provided \$9.2 million to the farmland preservation program.

The total investment in Pennsylvania farmland preservation in 2014 was \$54,771,262, including federal, state, county and local dollars.

Under the provisions of Act 96 of 1994, the funding formula for county allocation of funds was revised. Instead of funding all 67 counties in the commonwealth, the allocation of funds is available only to those counties having programs approved by the state agricultural land preservation board by January 1 of each year. In 2014, 57 counties received allocated funds for easement purchase.

Fifty-three of the 57 counties appropriated funding for preservation purposes, totaling \$16.6 million in local matching funds for the 2014 calendar year (Figure 1, appendix). Counties that set aside funding received a state match based on a funding formula. All of the counties with approved programs received a state grant. The state's total allocation was \$30 million in 2014. (Figure 2, appendix)

Public Information and Training

The bureau is committed to protecting the state's farmland from development. Part of this commitment involves providing county programs with accurate information and resources to submit easement purchases to the State Agricultural Land Preservation Board for approval.

Bureau staff support the 57 counties with approved programs by interpreting legislation, reviewing county program manuals, providing sample documents, meeting with appraisers, reviewing easement documents and offering administrative guidance.

Following several state board meetings, the bureau conducted roundtable sessions for county administrators and board members to communicate issues surrounding farmland preservation.

In 2014, several individual training sessions were conducted for county administrators. The bureau participated in other meetings held by the Pennsylvania Farmland Preservation Association, an organization comprised of county farmland preservation program administrators dedicated to promoting and enhancing the interests of agricultural land preservation in the state.

The third edition of *A Guide to Farmland Preservation*, updated and printed several years ago to feature instructional text and document examples in a more user-friendly format, was provided to state board members and county administrators in print. It remains available to the public on compact disc or on the department's website at www.agriculture.state.pa.us by searching "guide."

PA Farmland, a web-based program, automates and streamlines the process of submitting farms for easement recommendation, saving time and resources and cutting administrative costs. The bureau will work with the department's Office of Information Technology on Phase Two to incorporate financial tracking and inspection forms, further reducing paperwork and improving efficiency.

Bureau staff provided public outreach at the 2014 Pennsylvania Farm Show in Harrisburg, Dauphin County, and Ag Progress Days in Rock Springs, Centre County.

In 2014, the bureau taught several Clean and Green program classes to county tax assessors at regional and statewide conferences. In addition, the bureau regularly attends meetings conducted by the Assessors Association of Pennsylvania's Clean and Green committee.

In 2014, bureau staff met routinely with farmers and stakeholders on topics related to farmland preservation and Pennsylvania agriculture, including events across the state like the Perry County Conservation District's annual banquet and Beaver County's Farm City Day banquet. Staff traveled to northwestern Pennsylvania to speak with several counties about starting new programs and met with county assessors across the state to discuss issues surrounding Clean and Green.

Clean and Green Program

The Pennsylvania Farmland and Forest Land Assessment Act of 1974, also known as the Clean and Green Act, protects farmland, forestland and open space by allowing for land taxation according to its value as-used rather than the prevailing market value. The effect of Clean and Green on the overall farmland preservation effort is widespread, as affordable property taxes are essential to maintaining viable farms. In its 40-year history, the program has been vastly successful in achieving this goal.

Enrolled land is assessed according to the income approach to land appraisal – the amount of income the land is capable of producing at its highest and best agricultural use. The trend in recent years has been for the use values to increase. The county may establish use values that are lower than the department's. The program has widespread participation, with 9.5 million acres enrolled statewide. The average reduction in fair market assessed value for enrollees is nearly 50 percent – providing an incentive to keep the land undeveloped. The program is voluntary and generally requires a minimum of 10 acres remaining in one of three designated use categories – agricultural, agricultural reserve, or forest reserve.

“Agricultural use” describes land used to produce agricultural commodities commercially. “Agricultural reserve” includes noncommercial open space land used for recreation and scenic enjoyment that is open to the public free-of-charge. “Forest reserve” describes the use of 10 acres or more of forested land capable of yielding timber or other wood products.

Land removed from its designated category for a non-permitted use becomes subject to a roll-back tax imposed for up to seven years, plus six percent interest. Certain land divisions and conveyances are exempt from roll-back penalties if the original use of the land does not change.

County assessment offices administer the act at the county level. The bureau provides for uniform interpretation of the act among county assessment offices and distributes use values by May 1 of each year. County assessors are required to submit information annually on the extent of Clean and Green Act participation within their counties to the department. To facilitate this process, the department surveyed each county on its Clean and Green activity. The findings from this survey are the basis of this report. A copy of the survey form used to gather this information is included as Exhibit A (appendix).

In 2014, the bureau drafted revisions to the regulation that would make it current with recent changes in the law, and received public comments. The final regulation will be published by summer 2015.

2014 Clean and Green Survey Results

Administration

The 2014 survey forms were distributed to 67 counties and 62 responded to the survey. Fifty-five counties, or 82 percent, participated in the Clean and Green program. Table 8 (appendix) depicts those counties reporting participation in 2014.

Table 9 (appendix) summarizes the statistical data of participation. Counties reported 185,596 parcels enrolled in 2014 covering 9,332,955 acres.

Table 10 (appendix) indicates the acres terminated in each category of eligibility. The most common reasons for termination and removal of enrolled land include a split-off/subdivision between two and 10 acres, a change in use of the enrolled property that is inconsistent with the eligibility requirements, sale of enrolled property for residential development, establishment of a commercial activity not consistent with the allowable rural enterprise, and posting land enrolled in the agriculture reserve category.

Table 11 (appendix) lists the number of applications rejected per county for reasons such as not meeting requirements, too little acreage, late filing, non-conforming use, inability to verify ownership, or failure to show \$2,000 anticipated gross income. It lists the number of violations cited for reasons such as property split-offs, non-conforming subdivisions, change in use, transfer of land, and voluntary rollbacks.

Table 12 (appendix) lists the Rollback Tax Summary. It details the dollar amount received as rollback taxes and the dollar amount received as interest on the rollback taxes. Act 319 requires that all the interest received on rollback taxes be added to other local money appropriated by an eligible county for the purchase of agricultural conservation easements. If the county does not participate in the easement program, the interest shall be forwarded to the state agricultural conservation easement purchase fund.

Table 13 (appendix) lists the manner in which Act 319 use values were determined by the responding counties. The county has the option of establishing a base year to calculate the preferential assessment, using the annual department-provided county-specific use values, or determining a lower county-specific use value.

Table 13 also lists how counties assess the forest reserve county average values. The department, with assistance from the state Department of Conservation and Natural Resources Bureau of Forestry, provides values based on the average value of timber in a particular county and the average value of six timber types.

Agricultural Conservation Easement Program

The Agricultural Conservation Easement Program (ACEP) works through existing government programs, including the Bureau of Farmland Preservation, to help preserve prime and unique farmland. The program reimburses land owners up to 50 percent of the fair market easement value. This allows counties to preserve additional farms on their waiting lists that may have otherwise not been preserved with state, county and municipality funding alone.

Since 1996, the Agricultural Conservation Easement Program (formerly known as the Farm and Ranchland Protection Program) has provided more than \$33 million in funding to the state

easement purchase program in Pennsylvania. This funding preserved more than 40,000 acres throughout the commonwealth. No federal funds were committed in 2014. At the time of this printing the department is negotiating a new cooperative agreement for future participation.

Century and Bicentennial Farm Programs

Pennsylvania's Century and Bicentennial Farm programs demonstrate the importance of agriculture and the state's rural heritage and emphasize the tradition and commitment of Pennsylvania's long-standing farm families.

The Century Farm Program recognizes farms that have been in the same family for 100 years or more. Owners of farms recognized with this designation are presented with a certificate from the Pennsylvania secretary of agriculture. Information supplied by the applicants is filed in the archives of the Pennsylvania Historical and Museum Commission.

The Bicentennial Farm Program was created in 2004 to recognize farms that have been in the same family for 200 years or more. The Bicentennial Farm Program is ruled by similar standards to the Century Farm Program.

In 2014, a total of 10 Century and Bicentennial farms were recognized. One Century Farm and one Bicentennial Farm were recognized at the 2014 Pennsylvania Farm Show. During the 2014 Ag Progress Days, two Century Farm families and one Bicentennial Farm family were recognized. Families received certificates and photos from the ceremonies. To date, the Department of Agriculture has recognized 1,957 Century and 167 Bicentennial farms, representing 2,124 families dedicated to both their heritage and production agriculture.

Grant Programs

Agricultural Land Conservation Assistance Grant Program

Act 99 of 1994 authorized up to \$750,000 in proceeds from the sale of state-owned farmland to establish an Agricultural Land Conservation Assistance Grant Program. The program is designed to assist counties with farmland preservation programs in developing Geographic Information Systems (GIS), effective agricultural zoning ordinances, and contracting with consultants (i.e. technicians to monitor soil conservation plans or providing financial implication workshops as a service to applicants). All grants must be used to improve the functioning and effectiveness of county programs.

The grant assistance program provides matching grants of up to \$10,000 to eligible counties. A county is not eligible for more than a cumulative total of \$25,000 in grants under the program.

The bureau distributed \$8,526 to two counties in 2014. There is a remaining balance of \$195,704 in the program account, allowing a future grant round.

Land Trust Reimbursement Grant Program

In addition to the state's Bureau of Farmland Preservation, nonprofit organizations called "land trusts" operate throughout Pennsylvania to ensure land with special natural or public value is not developed. To support this effort and accelerate the state's farmland preservation activity, Act 46 of 2006 established the Land Trust Reimbursement Grant Program.

The grant program authorizes the Pennsylvania Agricultural Land Preservation Board to allocate up to \$200,000 annually from the Agricultural Conservation Easement Purchase Fund for reimbursement of expenses incurred in the acquisition of agricultural conservation easements by these nonprofits. The grants cover expenses including appraisal, legal services, title searches, document preparation, title insurance, survey and closing fees.

Twenty-three land trusts are registered with the state board. As of December 2014, the board awarded \$1,772,937.73 to seven trusts for expenses incurred through the preservation of 28,000 acres. The acreage preserved through this program does not count toward the state total of preserved land and farms.

Program Participation

The remainder of this annual report responds directly to the requirements of Section 14.4 (legislative report) of Act 149 of 1988, the Agricultural Area Security Law. Subsection titles are keyed to the numbered paragraphs of Section 14.4 and contain explanatory text that references to tables and graphs included in the appendices.

Agricultural Security Areas

Location

A list of all Agricultural Security Areas (ASA) known to the department is contained in Table 1 (appendix). ASAs are listed alphabetically by county and township.

The Agricultural Area Security Law, as amended April 13, 1992, P.L. 100, No. 23, provides that the Secretary of Agriculture shall be notified by the governing body within 10 days of the recording of an ASA.

In 2014, one township was newly designated as ASA, bringing the state totals to 991 ASAs in 65 counties in Pennsylvania.

Agricultural conservation easements preserved in 2014 are listed in Table 2 (appendix). The first two columns list the landowner's name and the county where the easement is located.

Number of Acres

In 2014, a total of 3,959,059 acres were enrolled in ASAs across Pennsylvania.

Conservation Easements

Number of Acres

In 2014, 18,485 acres were placed under agricultural conservation easements. A total of 502,757 acres has been placed under agricultural conservation easements in the commonwealth since the program began under the authority of Act 149 of 1988. All the easements have been purchased as perpetual.

Number of Easements

To date, 4,732 easements have been purchased in Pennsylvania under the authority of Act 149 of 1988. While other agricultural conservation easements exist in the commonwealth, they have not been purchased under the authority of Act 149 and their existence is not reported to the agriculture department. The reported easements are specifically divided into 1,002 county-

owned, 1,557 commonwealth-owned, 2,041 jointly-owned agricultural conservation easements, 91 multi-funded easements and 41 easements funded jointly between a county and non-profit or local municipality.

Number and Acres in Each Conservation Easement

Table 2 (appendix) lists the number of, and acres for, each easement purchased during the reporting period. There were 200 easements totaling 18,485 acres purchased in 2014, shown in Table 3 (appendix). There were 180 lump-sum payment purchases, accounting for 90 percent of the easements. The majority of easement transactions were bargain sales, meaning easements were purchased at less than 100 percent of the appraised easement value.

There were 20 regular installment sales, roughly 10 percent. Eight installments received 0.0 percent interest. The interest rate for the remaining regular installment sales was an average 1.0 percent.

Number and Value of Easements Purchased

The purchase price of each easement under the program this reporting period is given under column five of Table 2 (appendix). The next two columns of Table 2 present additional costs in acquiring the easements and the "Total Costs" column represents the sum of the three columns.

1. Commonwealth-Owned Conservation Easements

Fifty-four commonwealth-owned easements were purchased in 2014, covering 4,594 acres with an easement value of \$15,278,583.

2. Joint Commonwealth/County-Owned Conservation Easements

There were 69 state and county jointly-owned easements covering 8,253 acres purchased in 2014. These easements totaled 6,097,416.

3. Multi- Commonwealth/County/Township-Owned Conservation Easements

In 2014, six multi-owned easements totaling 802 acres and \$6,097,416 were purchased by the commonwealth, counties and townships.

Participating Counties

All 57 counties with appointed boards and active programs were eligible to participate in the 2014 allocation of funds process and are listed in Table 3 (appendix).

County Annual Appropriation

The 2014 appropriations made by counties are listed in Table 3 (appendix), column B, totaling \$16,631,904. Figure 1 (appendix) shows total county appropriation amounts from 1989-2015.

Characteristics of 2014 Preserved Farmland Quality of Farmlands Subject to Easement

Data was collected on the soil classification, crop types, acreages and yields, livestock types and numbers for each farm on which an easement was purchased from January 1 – December 31, 2014.

In summary, 18,485 acres of land were placed under easement during this reporting period on 200 farms.

Natural Resources Conservation Service (NRCS) soil classifications of this land are:

- Class I – 185 acres
- Class II – 9,243 acres
- Class III – 5,915 acres
- Class IV – 2,218 acres
- Other Classes (V-VIII; ponds, wetlands or other lands not broken down by county) – 924 acres

Soil classes I-IV are well-suited for agricultural production.

A breakdown of the major crops grown on the farms:

- Row Crops – 9,058 acres
- Hayland – 5,285 acres
- Small Grain – 1,924 acres
- Pasture – 2,218 acres

Farms preserved supporting primary livestock operations:

- Dairy – 38 farms
- Beef – 27 farms
- Horses – 3 farms
- Sheep – 2 farms
- Swine – 1 farm

Nature and Scope of Development Activity

The likelihood of development was generally moderate to high in areas where agricultural conservation easements were purchased. These areas were primarily zoned rural residential, agricultural or conservation district. Agricultural zoning occurred in approximately 50 percent of the areas under easement purchase. Public sewer and water is available or is planned in approximately 25 percent of the preserved area.

Conservation Practices on Farms Subject to Easement

The following summary presents the frequency of use of conservation practices and best management practices on farms where conservation easements were purchased in 2014. All the farmers have developed conservation plans for their farms and are in various stages of implementation. Annual inspections conducted by the counties will report on the progress being made by farmers toward implementing their conservation plans.

SUMMARY OF CONSERVATION PRACTICES ON FARMS WITH CONSERVATION EASEMENTS		
<u>CONSERVATION PRACTICES</u>	<u>NUMBER OF FARMS</u>	<u>PERCENT OF TOTAL FARMS w/EASEMENTS</u>
Conservation tillage	125	62
Contour farming	132	66
Crop rotations	128	64
Crop residue use	66	33
Cover crops	80	40
Diversions	50	15
Streambank protection	8	4
Stripcropping	148	74
Subsurface drainage	10	5
Terraces	16	8
Water control structures	8	4
Waterways	72	36
Animal waste storage	88	44
Nutrient management system	80	40
Pasture and hayland management	120	60

Recommendations for the Purchase of Agricultural Conservation Easements

The total number of recommendations filed this reporting period by counties is the same as the number approved by the state board (168). None were disapproved.

Conclusion

Over the past year, the Farmland Preservation Program has permanently preserved 18,485 acres of agricultural land on 200 farms. The total cost of this protection in state and county funds was \$54,771,262. The average price per acre was \$2,900. Farmers have requested and gained municipal government approval of agricultural security areas protecting farming on more than 3.9 million acres of land. Of the 57 participating counties, 54, or 94 percent, appropriated local money for farmland preservation during the 2014 calendar year, amounting to more than \$16.6 million.

Pennsylvania’s farmland preservation program remains a successful partnership between all levels of government and non-profit entities and is a national model for success in safeguarding prime farmland. An estimated 1,900 eligible farms remain on county backlog lists for 2015.

Preserving the farm, though, is just the beginning. The challenge of securing Pennsylvania agriculture in perpetuity requires that these safeguarded farms are transitioned to a new generation of agriculturalists. Through the bureau, PA Farmlink and the Center for Farm Transitions, the department is addressing these challenges.

County Milestones

Two counties reached important preservation milestones during 2014:

- Dauphin County – 15,000 acres
- Washington County – 5,000 acres

State Agricultural Land Preservation Board

1. The land for which application is being made is owned by (a) (an) (Check one):

- A. Individual
- B. Partnership
- C. Corporation
- D. Institution
- E. Cooperative
- F. Other (explain) _____

2. Is the land currently assessed under Act 515: “(16 P.S. Section 11941 *et seq.*)” Yes No

3. Is the land in this application leased for minerals? (Including oil & gas) Yes No

4. Is there a cellular communication tower located on this property? Yes No

5. Are there Tier I alternative energy sources located on this property? (See definition) Yes No
If so, is the majority of the energy annually generated utilized on the tract? Yes No

Tier I alternative energy source-energy derived from solar photovoltaic energy, wind power, low-impact hydropower geothermal energy, biologically derived methane gas, fuel cells, biomass energy and coal mine methane.

6. Do you or anyone else conduct non-agricultural commercial activities on this land? Yes No
If yes, please describe this activity.

7. The property is located in: _____
(School District)

(City, Town, Borough) (County)

8. Under which category (ies) do you qualify? NOTE: One application may include more than one land use category.

Agricultural Use Agricultural Reserve Forest Reserve

Agricultural Use-Land which is used for the purpose of producing an agricultural commodity or is devoted to and meets the requirements and qualifications for payments or other compensation pursuant to a soil conservation program under an agreement with an agency of the Federal Government.

Agricultural Reserve- Noncommercial open space lands used for outdoor recreation or the enjoyment of scenic or natural beauty and open to the public for such use, without charge or fee, on a nondiscriminatory basis.

Forest Reserve-Land, ten acres or more, stocked by forest trees of any size and capable of producing timber or other wood products. NOTE-These categories include any land devoted to the development and operation of an alternative energy system, if a majority of the energy annually generated is utilized on the tract.

9. Is there farmstead land located on this property? (See definition) Yes No

Farmstead land- any curtilage and land situated under a residence, farm building or other building which supports a residence, including a residential garage or workshop.

10. Does ineligible land exist as part of the larger contiguous tract of eligible land on this application? Yes No
If yes, please list below any ineligible land and the use of the land which is causing it to be ineligible.

11.. For agricultural use applications, has the land represented on this worksheet been actively devoted to agricultural use for the past three years?

Yes No

Farm Operator's Name: _____

List commodities produced: _____

12. IN THE EVENT OF A CHANGE IN OWNERSHIP OF A PORTION OF THE LAND, OR OF ANY TYPE DIVISION OR CONVEYANCE OF THE LAND, THE APPLICANT HEREBY ACKNOWLEDGES THAT, IF HIS APPLICATION IS APPROVED FOR PREFERENTIAL ASSESSMENT, ROLL-BACK TAXES UNDER SECTION 5.1 OF THE ACT MAY BE DUE FOR A CHANGE IN USE OF THE LAND, A CHANGE IN OWNERSHIP OF ANY PORTION OF THE LAND, OR ANY TYPE OF DIVISION OR CONVEYANCE OF THE LAND.

The applicant for preferential assessment hereby agrees, if his application is approved for preferential assessment, to submit thirty days notice to the county assessor of a proposed change in use of the land, a split-off portion of the land, or a conveyance of the land.

The undersigned declares that this application, including all accompanying schedules and statements, has been examined by him/her and to the best of his/her knowledge and belief is true and correct, and makes this representation subject to the penalties of 18Pa.C.S.A. Section 4904 (relating to unsworn falsification to authorities).

Table 7: Land Trust Reimbursement Grant Program

Background: Act 15 of 1999 authorized the State Board to allocate up to \$500,000.00 from the Supplemental Agricultural Conservation Easement Purchase Account for reimbursement grants to be awarded among qualified land trusts. Act 46 of 2006 amended the Agricultural Area Security Law (P.L. 128, No. 43), re-establishing the Land Trust Reimbursement Program by authorizing the State Agricultural Land Preservation Board to allocate \$200,000 per year to the Grant Program. The program will reimburse qualified land trusts up to \$5,000 for expenses incurred in the acquisition of agricultural conservation easements. These expenses include appraisal costs, legal services, title searches, document preparation, title insurance, closing costs, and survey costs.

Objective: Accelerate Farmland Preservation activity by developing partnerships with Land Trusts.

Land Trusts registered with the State Board (23):

Adopt An Acre, Inc.
 Allegheny Land Trust
 Berks County Conservancy
 Brandywine Conservancy
 Central Pennsylvania Conservancy
 Centre County Farmland Trust
 Countryside Conservancy
 Delaware Highlands Conservancy
 Farm and Natural Lands Trust of York County
 French and Pickering Creeks Conservation Trust, Inc.
 Heritage Conservancy
 Lancaster Farmland Trust
 Land Conservancy of Adams County
 Lebanon Valley Conservancy, Inc.
 Manada Conservancy
 Merrill W. Linn Conservancy
 Montgomery County Lands Trust
 Natural Lands Trust, Inc.
 North Branch Land Trust
 Pennsbury Land Trusts, Inc.
 Pittsburgh History & Landmarks Foundation
 Western Pennsylvania Conservancy
 Wildlands Conservancy

Application Reimbursements (16):

Adopt An Acre, Inc.	31 acres	\$5,500.00
Berks County Conservancy	168 acres	\$9,945.30
Brandywine Conservancy	2,978 acres	\$174,432.59
Central Pennsylvania Conservancy	849 acres	\$40,981.50
Centre County Farmland Trust	432 acres	\$15,000.00
Delaware Highlands Conservancy	307 acres	\$10,000.00
Farm and Natural Lands Trust of York County	4022 acres	\$201,564.99
Lancaster Farmland Trust	14,164 acres	\$1,162,117.74
Land Conservancy of Adams County	5224 acres	\$206,917.22
Lebanon Valley Conservancy, Inc.	416 acres	\$7,689.57
Montgomery County Lands Trust	57 acres	\$4,104.27
Natural Lands Trust	197 acres	\$4,988.78
Wildlands Conservancy	69 acres	\$5,978.00

TOTALS (401 easements)

28,914 ACRES

\$1,849,216.60
